WORK QUALITY STANDARDS**1.0 WARRANTIES**

- 1.1 Contractor warrants to Company and Concessionaire that the Work shall comply strictly with the provisions of this Contract and all specifications, drawings and standards referred to in this Contract or thereafter furnished by Company, and that the Work shall be first-class in every particular and free from defects in materials and workmanship and in any design or engineering furnished by Contractor. Contractor further warrants to Company and Concessionaire that all materials, equipment and supplies furnished by Contractor for the Work shall be new, merchantable, of the most suitable grade and fit for their intended purposes. Without limitation of any other rights or remedies of Company or Concessionaire, if any defect in the Work in violation of the foregoing guarantees arises within the period set forth below, Contractor shall, upon receipt of written notice of such defect, promptly furnish, at no cost to Company or Concessionaire, design and engineering, labor, equipment and materials necessary to correct such defect and cause the Work to comply fully with the foregoing warranties.
- 1.2 Contractor's warranties set forth in Section 1.1 shall extend for twenty-four (24) months after the date of final written acceptance of the Work by Company, or eighteen (18) months after the start of regular operation or use of the Work by Concessionaire, whichever occurs first. Any period wherein the Work is not available for use due to defects in materials, workmanship or engineering furnished by Contractor shall extend the warranty period by an equal period of time.
- 1.3 Design and engineering, labor, equipment and materials furnished by Contractor pursuant to Section 1.1 to correct defects shall be warranted by Contractor in accordance with the warranties set forth in Section 1.1 for a period of eighteen (18) months from the date of completion of the correction, or for the remainder of the warranty period set forth in Section 1.2 above, whichever is longer.
- 1.4 In the event Contractor has been notified of any defects in the Work in violation of Contractor's foregoing warranties and fails to promptly and adequately correct such defects, Company and Concessionaire shall have the right to correct or to have such defects corrected for the account of Contractor, and Contractor shall promptly pay Company or Concessionaire the costs incurred in correcting such defects.
- 1.5 Contractor shall include, at a minimum, the foregoing warranty requirements in any subcontract that it places.

2.0 INSPECTION, TESTING AND QUALITY CONTROL

- 2.1 Contractor shall inspect all materials, supplies and equipment which are to be incorporated in the Work. In addition, Contractor shall conduct a continuous program of construction quality control for all Work. Contractor's quality control

Project Name: A-Line Stations Snow Removal Services

program and inspection procedures for the foregoing shall be submitted in writing to Company for review and approval, in sufficient detail to delineate those items to be inspected and the manner in which they are to be inspected, and shall adequately describe all construction quality control activities contemplated, including provision for adequate documentation of Contractor's performance of such quality control and inspection.

- 2.2 Contractor shall, during the course of performance of the Work hereunder, without additional compensation, make or cause to be made all tests required by this Contract. Company may require additional inspections and tests. Contractor shall furnish Company with satisfactory documentation of the results of all inspections and tests. Company shall be given not less than five (5) working days notice of any tests to be made by Contractor or Contractor's subcontractors in order that Company, Concessionaire and/or Owner may witness any such tests.
- 2.3 Company, Concessionaire and Owner and their representatives, and others as may be required by applicable laws, ordinances and regulations, shall have the right at all reasonable times to inspect the Work and all material, supplies and equipment for the Work at the jobsite and at Contractor's and its subcontractors' shops for conformance with the Contract. Contractor shall provide, or cause to be provided access and sufficient, safe and proper facilities for such inspections. Neither the failure to make such inspection nor to discover defective workmanship, materials or equipment, nor approval of or payment to Contractor for such Work, materials or equipment shall prejudice the rights of Company.
- 2.4 If Contractor covers any portion of the Work prior to any inspection or test provided for in the specifications, inspection schedule, or as previously requested by Company, the cost of uncovering and covering the Work to allow for such inspection or test shall be borne by the Contractor. Reexamination of any Work may be ordered by Company. In the event of such reexamination, if any material, equipment or any part of the Work is determined by Company to be defective, Contractor shall not be reimbursed for uncovering, repair or corrective and restoration costs. If such Work is found to be in accordance with the Contract requirements upon such reexamination, Company shall pay Contractor the cost of uncovering and restoration.
- 2.5 Rejection by Company of any or all parts of defective Work for failure to conform to this Contract shall be final and binding. Such rejected Work shall be promptly corrected or replaced by Contractor at Contractor's expense. If Contractor fails to commence and diligently continue correction or replacement of such rejected Work immediately after receipt of written notice from Company to correct or replace the rejected Work, Company may at its option remove and replace the rejected Work, and Contractor shall promptly reimburse Company for the costs of such removal and replacement of defective Work.

3.0 CONDITIONS AND RISKS OF WORK

Contractor represents that it has carefully examined the documentation, drawings and specifications for the Work and has fully acquainted itself with all other conditions relevant to the Work, and its surroundings, and Contractor assumes the risk of such conditions and will, regardless of such conditions, the expense, difficulty of performing the Work, or negligence, if any, of Company, fully complete the Work for the stated Contract Price without further recourse to Company. Information on the site of the Work and local conditions at such site furnished by Company in specifications, drawings or otherwise is not guaranteed by Company and is furnished only for the convenience of Contractor.

4.0 ISSUED FOR CONSTRUCTION DRAWINGS AND SPECIFICATIONS

- 4.1 The Work shall be performed using only drawings and specifications marked "Issued for Construction" or equivalent by Company. Such indication shall not relieve Contractor of any obligations under this Contract, nor constitute Company assumption of responsibility for the accuracy or adequacy of any of Contractor's information or Work incorporated in such documents.
- 4.2 Contractor shall perform all Work outside of the areas marked "HOLD" on "Issued for Construction" specifications and drawings to maintain the schedule of Work, but shall not perform any Work in the areas or sections marked "HOLD" on "Issued for Construction" specifications and drawings until revised "Issued for Construction" specifications and drawings are received with the "HOLD" markings deleted.
- 4.3 If Contractor's schedule will be delayed by "HOLD" markings on specifications and drawings, Contractor shall report such delay to Company in writing not less than five (5) working days prior to the start of the delay.
- 4.4 Contractor shall maintain at the work site a complete and current set of "Issued for Construction" drawings and specifications.

5.0 INTENT OF SPECIFICATIONS AND DRAWINGS

- 5.1 The specifications and drawings may not be complete in every detail. Contractor shall comply with their manifest intent and general purpose, taken as a whole, and shall not make use of any errors or omissions therein to the detriment of the Work. Should any conflict, error, omission or discrepancy appear in the drawings, specifications, instructions, in work done by others, or in site conditions, Contractor shall notify Company in writing at once and Company will issue written instructions to be followed. If Contractor proceeds with any of the Work in question prior to receiving such instructions, then required corrections shall be at Contractor's expense.
- 5.2 Contractor shall not deviate from the specifications and drawings without prior written approval from Company.

Project Name: A-Line Stations Snow Removal Services

- 5.3 Materials shall not be substituted for those specified, nor shall "or equal" items be furnished pursuant to the specifications without Company prior written approval.

6.0 SAFETY AND CLEAN-UP

- 6.1 Contractor shall take necessary safety and other precautions to protect property and persons from damage, injury or illness arising out of the performance of the Work. Contractor shall comply strictly with local, municipal, provincial, state and national laws, orders, and regulations pertaining to health or safety which are applicable to Contractor or to the Work, including without limitation the Occupational Safety and Health Act of 1970 (84 U.S. Statutes 1590), as amended, and any state plans approved thereunder and regulations thereunder, to the extent applicable, and Contractor warrants the materials, equipment and facilities, whether temporary or permanent, furnished by Contractor in connection with the performance of the Work shall comply therewith. At all times while any of Contractor's employees, agents or subcontractors are on Owner's or Company's premises, Contractor shall be solely responsible for providing them with a safe place of employment, and Contractor shall inspect the places where its employees, agents or subcontractors are or may be present on Owner's or Company's premises and shall promptly take action to correct conditions which are or may become an unsafe place of employment for them.
- 6.2 Accidents, injuries and illnesses requiring medical attention other than first aid, damage to property of Company, Owner or Contractor, and fires shall be orally reported to Company at the time of the incident. Written reports, satisfactory in form and content to Company shall be submitted by Contractor within forty-eight (48) hours after each incident.
- 6.3 Contractor shall maintain, in form and content approved by Company, jobsite accident, injury and illness statistics which shall be available for inspection by, and submitted to, Company upon its written request.
- 6.4 Contractor shall keep Owner's premises and the vicinity thereof clean and free of any debris and rubbish caused by the Work and on completion of the Work, shall leave such premises clean and ready for use. Areas used for the purposes of material/equipment lay-down, temporary facilities, storage and the like shall be restored to the condition existing prior to Contractor's occupation.

7.0 SUBCONTRACTS AND PURCHASE ORDERS

- 7.1 Contractor shall not subcontract performance of all or any portion of the Work under this Contract without first notifying Company of the intended subcontracting and obtaining Company acceptance in writing of the subcontracting and the subcontractor. If requested by Company, Contractor shall furnish Company a copy of the proposed subcontract (with price deleted if the subcontracted work is part of fixed price Work of Contractor under this Contract) for Company review of the terms and conditions thereof and shall not execute such subcontract until Company has accepted such terms. Failure of Contractor

Project Name: A-Line Stations Snow Removal Services

to comply with this Section may be deemed by Company to be a material breach of this Contract.

- 7.2 Contractor guarantees that its subcontractors will comply fully with the terms of this Contract applicable to the portion of the Work performed by them. If any portion of the Work which has been subcontracted by Contractor is not prosecuted in accordance with this Contract, on request of Company, the subcontractor shall be replaced at no additional cost to Company and shall not be employed again on the Work.
- 7.3 Contractor shall include a provision in every subcontract that it places authorizing assignment of such subcontract to Company, Concessionaire or Owner without requiring further consent from such subcontractor or supplier.
- 7.4 Company shall have the right from time to time to contact Contractor's subcontractors to discuss their progress.
- 7.5 As used in this Contract, the term "subcontract" shall also include purchase orders and rental agreements for materials or equipment, and the term "subcontractor" shall also include vendors or suppliers of such material or equipment.
- 7.6 Contractor shall not be relieved of its responsibility for the Work by virtue of any subcontracts it may place regardless of Company's acceptance of such subcontract.
- 7.7 The United Nations Convention on Contracts for the International Sale of Goods does not apply to this Contract and shall be disclaimed and excluded from any subcontracts placed by Contractor.

8.0 TERMINATION FOR DEFAULT

- 8.1 In the event that Contractor shall default in the performance of any obligation to be performed by Contractor under this Contract and shall fail to correct such default within five (5) working days following written notice thereof from Company, Company may, without prejudice to any other rights or remedies Company may have, hold in abeyance further payments to Contractor and/or terminate Contractor's right to continue performance of this Contract by written notice to Contractor specifying the date of termination. In the event of such termination, Company may take possession of the Work at the jobsite and any or all materials and plant equipment (whether delivered to the jobsite or on order therefore by Contractor), tools and construction equipment at jobsite and finish the Work by whatever method Company may deem expedient.
- 8.2 In the event of termination by Company under Section 8.1, Contractor shall, upon request by Company, promptly advise it of all outstanding subcontracts, rental agreements and purchase orders which Contractor has with others pertaining to

Project Name: A-Line Stations Snow Removal Services

performance of the Work and furnish Company with complete copies thereof. Upon request by Company, Contractor shall assign to Company or Owner, in form and content satisfactory to Company, Contractor's title to materials and plant equipment for the Work and those subcontracts designated by Company.

- 8.3 In the event of termination by Company under Section 8.1, Contractor shall not be entitled to receive any further payment until the Work is completed. Upon completion and final acceptance of the Work, Company will determine the total cost incurred in completing the Work including, without limitation, additional overhead, legal and other costs incurred by Company to effect such termination and to complete the Work, plus a markup for profit in the amount of ten percent (10%) on the total cost of the Work performed by Company. If the total costs noted above exceed the balance of the Contract Price unpaid at the time of the termination, Contractor shall, promptly after receipt of an invoice, pay to Company the amount of such excess. Company shall have the right and is authorized to set-off against and deduct from any excess payable to Contractor any other damages suffered by Company or Owner due to said default or event giving rise to the termination or due to other defaults of Contractor in complying with the terms of this Contract. Contractor shall continue to be fully liable for all such other damages to Company. A waiver by Company of one default by Contractor shall not be considered to be a waiver of any subsequent default by Contractor, nor be deemed to amend or modify the terms of this Contract. Contractor expressly waives any formal notice by Company of Contractor's failure to perform, or passive breach of, Contractor's express obligations under this Contract.
- 8.4 Contractor agrees that upon commencement of a case, receivership, civil action or other proceeding by or against Contractor under state, federal or other applicable insolvency law, or upon any general assignment by Contractor for the benefit of its creditors, Company may, in its sole discretion, treat Contractor as in default under Section 8.1 and may exercise any of the remedies of this Article. In the event Company's remedies under this Section 8.4 are limited by the commencement by or against the Contractor of a case under any chapter of the United States Bankruptcy Code, Contractor stipulates, acknowledges and agrees that time is of the essence in determination of whether this Contract should be "assumed" or "rejected," within the meaning of 11 U.S.C. § 365; and Contractor therefore further stipulates and agrees that subject only to calendaring constraints of the Bankruptcy Court having jurisdiction, it will take all necessary action to cause the assumption or rejection of this Contract on or before the thirtieth day filing the Petition commencing any such case. In such event, if Contractor seeks to "assume" this Contract, Contractor expressly stipulates, acknowledges and agrees that "adequate assurance of future performance" within the meaning of 11 U.S.C. § 365 (b)(1)(C) means a determination that there is no foreseeable likelihood that there will be any further interruption of Contractor's performance under this Contract following its assumption.

Project Name: A-Line Stations Snow Removal Services

- 8.5 Contractor shall be considered in default from complying with the obligations of this Contract whenever, by reason of strikes, picketing or disputes of any nature between Contractor and any individual, group or organization, Contractor persistently, repeatedly, or for any period of five (5) consecutive working days, should be unable to supply enough properly skilled workers or proper materials or equipment to execute the Work.
- 8.6 If any termination for default is determined to have been made in error, the provisions of Article 17.0, Termination at Company's Option, shall apply.
- 8.7 In the event Contractor abandons the Work or otherwise repudiates this Contract, the notice requirements of Section 8.1 shall not apply.

9.0 STOP WORK ORDERS

Upon failure of Contractor or its subcontractors to comply with any of the requirements of this Contract, Company shall have the authority to stop any operations of Contractor or its subcontractors affected by such failure until such failure is remedied or to terminate this Contract in accordance with Article 8.0. No part of the time lost due to any such stop work orders shall be made the subject of a claim for extension of time or for increased costs or damages by Contractor.

TIMING OF WORK

10.0 SCHEDULING, REPORTING AND COORDINATION

- 10.1 Contractor shall schedule and coordinate the details of the Work being performed to meet the schedule requirements set forth in Part I of this Contract. Within thirty (30) calendar days after award of this Contract and before submittal of the first progress payment invoice, Contractor shall submit to Company for approval, a detailed schedule showing the sequence in which Contractor proposes to perform the Work, the start and completion dates of all separable portions of the Work, manpower forecasts, materials procurement and delivery plans and any other information specified by Company. Contractor agrees to adhere to the schedule approved by Company and attend and participate in scheduled progress and coordination meetings called by Company.
- 10.2 During the performance of Work, Contractor shall submit to Company periodic progress reports on the actual progress and updated schedules as may be required by this Contract or requested by Company. In the event Contractor's performance of the Work is not in compliance with the schedule established for such performance, Company may, in writing, require the Contractor to submit its plan for schedule recovery, or specify in writing the steps to be taken to achieve compliance with such schedule, and/or exercise any other remedies under this Contract. Contractor shall thereupon take such steps as may be directed by Company or otherwise necessary to improve its progress without additional cost to Company.

Project Name: A-Line Stations Snow Removal Services

- 10.3 Contractor recognizes that Company, Owner, other contractors and subcontractors may be working concurrently at the jobsite. Contractor agrees to cooperate with Company, Owner and other contractors so that the project as a whole will progress with a minimum of delays. Company reserves the right to direct Contractor to schedule the order of performance of its Work in such manner as not to interfere with the performance of others.
- 10.4 If any part of Contractor's Work is dependent upon the quality and/or completeness of work performed under another contract, Contractor shall inspect such other work and promptly report to Company any defects therein which render such work unsuitable for the proper execution of the Work under this Contract. Failure to make such inspections or to report any such defects to Company shall constitute Contractor's acceptance of such other work as suitable to receive Contractor's Work provided however, that Contractor shall not be responsible for defects which could not have reasonably been detected.

11.0 OVERTIME

Unless expressly stated elsewhere in this Contract, Work at the jobsite shall be compatible with Company's starting and quitting times or other times approved by Company. Scheduled overtime work by Contractor must be approved in advance and in writing by Company. Contractor shall notify Company in advance of any incidental spot overtime which Contractor elects to work due to such operations as concrete placement, non-disruptable work activities and emergencies to protect life and/or property. Overtime work, whether scheduled or incidental, shall be to Contractor's account unless the compensation therefore is specifically authorized in writing by Company. In the event Company approves compensation of Contractor's overtime in advance, such compensation as separately authorized shall be limited to the actual cost to Contractor of the premium portion only of all applicable wages, craft fringe benefits, and payroll burdens imposed by any governmental authority and measured by the compensation payable to employees. To establish the amount of payment, Contractor shall submit supporting documents satisfactory in form and content to Company for its verification and approval.

12.0 DELAYS

- 12.1 In the event Contractor or Company is delayed in performing any of their respective obligations in this Contract and such delay is caused by acts of God, war, riots, civil insurrection, acts of the public enemy, accidents, acts of civil or military authority, fires, floods, or earthquakes, beyond the reasonable control of the party delayed, such delay will be excused and the period of such delay will be added to the time for performance of the obligation delayed, unless the date, schedule or time period for performance of the obligation is expressly stated in this Contract to be guaranteed. In the event any delay due to the foregoing causes or events occurs or is anticipated, the party delayed or anticipating delay shall promptly notify the other party in writing of such delay or expected delay and the cause and estimated duration of such delay. In the event of a delay due to the foregoing causes or events, the party delayed shall, at no cost to the other

Project Name: A-Line Stations Snow Removal Services

party, exercise due diligence to shorten and avoid the delay and shall keep the other party advised as to the continuance of the delay and steps taken to shorten or terminate the delay.

- 12.2 Contractor shall, within five (5) working days of the commencement of any delay, give to Company written notice thereof and of the anticipated effects thereof. Within two (2) working days of the termination of any delay, Contractor shall file a written notice with Company specifying the actual duration of the delay. If Company determines that a delay was beyond the control and without the fault or negligence of Contractor or its subcontractors and not foreseeable by Contractor at the effective date of this Contract, Company shall determine the duration of the delay and shall extend the time of performance of this Contract thereby.
- 12.3 Contractor shall not be entitled to, and hereby expressly waives recovery of, any damages suffered by reason of delays of any nature, including the negligence of Company, and extension of time shall constitute the sole liability of Company and Contractor's sole remedy for delays.

13.0 POSSESSION PRIOR TO COMPLETION

Company shall have the right to move into Contractor's working and storage areas and the right to take possession of or use any completed or partially completed part of Contractor's Work as Company deems necessary for their operations. In the event Company desires to exercise the foregoing right, Company will so notify Contractor in writing. Such possession or use shall not constitute acceptance of Contractor's Work.

14.0 NOTICE OF COMPLETION AND FINAL ACCEPTANCE

- 14.1 When Contractor deems the Work fully completed, including satisfactory completion of such inspections, tests and documentation as are specified in this Contract, Contractor shall, within ten (10) working days thereafter, give a written Notice of Completion of the Work to Company, specifying the Work completed and the date it was completed. Within thirty (30) calendar days after receipt of said Notice of Completion, Company may inspect the Work and shall either reject the Notice of Completion and specify defective or uncompleted portions of the Work, or shall give the Contractor a written Notice of Acceptance of the Work either for the purpose of final payment only, or for the purposes of final payment and final acceptance.
- 14.2 In the event Company rejects the Notice of Completion and specifies defective or uncompleted portions of the Work, Contractor shall, within five (5) working days, provide for Company review and approval, a schedule detailing when all defects will be corrected and/or the Work will be completed and shall proceed to remedy such defective and uncompleted portions of the Work. Thereafter, Contractor shall again give Company a written Notice of Completion of the Work, specifying a new date for the completion of the Work based upon the date such defective or uncompleted portions of the Work were corrected. The foregoing procedure shall

Project Name: A-Line Stations Snow Removal Services

apply again and successively thereafter until Company has given Contractor written Notice of Acceptance for purposes of final payment and final acceptance.

- 14.3 Any failure by Company to inspect or to reject the Work or to reject Contractor's Notice of Completion as set forth above, shall not be deemed to be acceptance of the Work for any purpose by Company nor imply acceptance of, or agreement with, said Notice of Completion.

WORK CHANGES

15.0 CHANGES

- 15.1 The Scope of Work shall be subject to change by additions, deletions or revisions thereto by Company. Contractor will be notified of such changes by receipt of additional and/or revised drawings, specifications, exhibits or other written notification.
- 15.2 If, upon receipt of any notification, Contractor considers that a change is involved that could affect its costs of performing the Work or upon the schedule for performance of the Work, Contractor is obligated to inform Company within five (5) working days of Contractor receiving the notification. Unless Contractor notifies Company in accordance with this Section, Contractor is obliged to perform the Work in accordance with the change and will have no entitlement to any additional compensation or to any change to the schedule.
- 15.3 Contractor shall submit to Company within ten (10) working days after submission of the notification from Contractor required under Section 15.2 above a detailed takeoff with supporting calculations and pricing for the change, together with any requested adjustments in the schedule. The pricing shall be itemized as required by Company and shall be in sufficient detail to permit an analysis of all labor, material and equipment and shall cover all work involved in the change, whether such work was deleted, added or modified. Amounts related to subcontracts shall be supported in similar detail. Any adjustments to the schedule must be accompanied by a revised version of the detailed schedule, agreed in accordance with Section 10.1 demonstrating that any proposed changes to the schedule have been caused by the change and have affected a critical path on such previously agreed detailed schedule.
- 15.4 If Contractor does not provide the detailed take-off to Company within the time allowed by Section 15.3, Contractor will have waived any right to additional compensation or to a change to the schedule in respect of the change and will proceed with the work in accordance with the change notification issued pursuant to Section 15.1 above.
- 15.5 Contractor shall not perform changes in the Work in accordance with Section 15.1 until Company has approved in writing the pricing for the change and any adjustment in the schedule for performance of the Work, except as set forth in Sections 15.4 and 15.6. Upon receiving such written approval from

Project Name: A-Line Stations Snow Removal Services

Company, Contractor shall diligently perform the change in strict accordance with this Contract.

- 15.6 Notwithstanding Section 15.5 Company may expressly authorize Contractor in writing to perform the change prior to such approval by Company. Contractor shall not suspend performance of this Contract during the review and negotiation of any change, except as may be directed by Company pursuant to Article 16.0, Suspension of Work.

In the event Company and Contractor are unable to reach timely agreement regarding any change, Contractor shall then comply with Article 18.0, Claims.

- 15.7 Contractor shall not comply with oral changes in the Work. If Contractor believes that any oral notice or instruction received from Company will involve a change in the cost, time to perform or integrity of the Work, it shall require that the notice or instruction be given in writing and shall comply with the provisions of Sections 15.2, 15.3, 15.5 and 15.6. Any costs incurred by Contractor to perform oral changes shall be for Contractor's account, and Contractor waives any and all rights to claim from Company for such costs or additional time to perform the Work as a result of compliance by Contractor with such oral changes.

16.0 SUSPENSION OF WORK

- 16.1 Company may, at any time and from time to time, by written notice to Contractor, suspend further performance of all or any portion of the Work by Contractor. Said notice of suspension shall specify the date of suspension and the estimated duration of the suspension. Such suspensions shall not exceed one hundred eighty (180) consecutive calendar days each nor aggregate more than two hundred seventy (270) calendar days. Upon receiving any such notice of suspension, Contractor shall promptly suspend further performance of the Work to the extent specified, and during the period of such suspension shall properly care for and protect all Work in progress and materials, supplies, and equipment Contractor has on hand for performance of the Work. Upon the request of Company, Contractor shall promptly deliver to Company copies of outstanding subcontracts of Contractor and shall take such action relative to such subcontracts as may be directed by Company. Contractor shall use its best efforts to utilize its material, labor and equipment in such a manner as to mitigate costs associated with suspension. Company may, at any time, withdraw the suspension of performance of the Work as to all or part of the suspended Work by written notice to Contractor specifying the effective date and scope of withdrawal, and Contractor shall resume diligent performance of the Work for which the suspension is withdrawn on the specified effective date of withdrawal.
- 16.2 If Contractor believes that any such suspension or withdrawal of suspension justifies modification of the Contract Price, Contractor shall comply with the provisions of the procedure set forth in Article 15.0, Changes. Contractor's final claim for modification of the Contract Price shall substantiate Contractor's

Project Name: A-Line Stations Snow Removal Services

increased costs for such suspension or withdrawal of suspension, with documents satisfactory to Company. Upon Company's verification and approval of such additional costs, Contractor and Company shall agree upon an adjustment in the Contract Price, based upon such verified and approved additional costs as full settlement to Contractor for the suspension or withdrawal of suspension. Contractor shall not be entitled to any prospective profits or any damages because of such suspensions or withdrawals of suspension.

17.0 TERMINATION AT COMPANY'S OPTION

- 17.1 Company may, with or without cause, terminate further performance of all or part of the Work by written notice to Contractor specifying the date of termination. On the date of such termination stated in said notice, Contractor shall discontinue performance of the Work and shall preserve and protect tools, construction equipment and facilities on jobsite, materials and plant equipment purchased for or committed to the Work (whether delivered to the jobsite or on order), Work in progress and completed Work (whether at jobsite or other locations) pending Company's instructions and, if requested by it, shall turn over the same to Company, including title to said materials and plant equipment, or dispose of same in accordance with Company's instructions.
- 17.2 Upon receipt of said notice, Contractor shall advise Company of its outstanding subcontracts pertaining to performance of the terminated work and, upon request, furnish Company with complete copies. Contractor shall place no further subcontracts except as may be necessary for completion of such portion of the Work as is not terminated. Contractor shall promptly make every reasonable effort to procure cancellation, upon terms satisfactory to Company, of all subcontracts to the extent they relate to the performance of Work terminated or, as directed by Company, shall assign to Company or Concessionaire, in form satisfactory to Company, such of its subcontracts as are designated by Company or shall take such other action relative to such subcontracts as may be directed by Company.
- 17.3 If Contractor has fully and completely performed all obligations under this Contract up to the date of termination, Contractor shall recover from Company as complete and full settlement for such termination for Work to be performed under this Contract, the actual costs of all such Work satisfactorily executed to the date of termination, plus an allowance for reasonable overhead and profit on such costs incurred prior to termination (but not to exceed a pro rata portion of such Contract Price for such Work based on the percentage of Work properly completed to the date of termination), together with reasonable costs occasioned by such termination and not previously paid for, less such sums as Contractor has already received on account of the Work performed. In no event shall total payment to Contractor exceed the Contract Price.
- 17.4 All requests for compensation under any of the foregoing provisions of Section 17.3 shall be submitted to Company in accordance with the provisions of

Project Name: A-Line Stations Snow Removal Services

Article 15.0, Changes. In no event shall Contractor be entitled to any prospective profits or any damages.

18.0 CLAIMS

- 18.1 If, for any reason, Contractor considers that an event has occurred pursuant to which it has a right to claim compensation from Company or an extension to the schedule, Contractor shall notify Company in writing of the existence of such claim within five (5) working days of the Parties' failure to reach a timely agreement pursuant to Section 15.6 for changes or from the occurrence of the event in question for other claims.
